Subject: Request to Continue Site plan Review Meeting Until January 11, 2011

Dear Bill/Steve,

American Pro Wind, LLC is requesting that the Site Plan Review be continued from the meeting of December 14, 2010 until January 11, 2011. Until the setback question has been resolved and the setback measurement methodology confirmed by the Town, it is really impossible for APW to proceed with a review of the plan as the entire plan depends upon the setbacks being measured from the tower base. The continuation should allow sufficient time for this issue to be resolved. Please confirm receipt of this request and pass along this request to the Planning Board. Thank you.

Respectfully submitted,

Rod Jané
