Subject: Douglas Woods Wind Farm Site Plan Review - Continuation Request

Dear Bill,

American Pro Wind, LLC is requesting a continuation of the Site Plan Review meeting with the Planning Board from the meeting of January 11, 2011 until the meeting of February 8, 2011. On December 22, 2010, American Pro Wind met with the Building Commissioner and Town Counsel to clarify several issues as they relate to the site plan. American Pro Wind will be making revisions to the site plan to bring the plan into conformance now that these issues have been clarified. It is expected that these revisions can be completed and submitted no sooner than the February 8, 2011 meeting date. Please forward this request to the Planning Board in advance of the January 11th meeting and confirm their receipt of this request.

Thank you,

Rod Jané
