Town of Douglas Planning Board

Re: Douglas Woods Wind Farm, Request for Continuance of Site Plan Review

Dear Chairman and Members of the Board,

Respectfully, I would like to request a continuance of the March 22nd, 2011 meeting to June 28th, 2011 for the above referenced project. The requested continuance has become necessary as a result of not having secured a Power Purchase Agreement (PPA) with the utility companies for the sale of the energy produced. The PPA is a critical component of the project's financial feasibility and financing and without it, typically projects cannot be developed.

American Pro Wind remains committed to the project and in the next few months, the primary focus of the company will be the obtaining of a PPA. We will keep the Planning Board informed of any progress.

In advance, I would like to sincerely thank the Board for your understanding and consideration to this request.

Regards,
Maurice Caparrotta
